Procedure & price guide

KRW / VAT EXCLUDED
VAT is charged separately. The 167 listed amounts are unchanged. VAT policy updated: 24 October 2026. Amount schedule: 11 September 2026.

This guide is not an individual all-inclusive quotation. Confirm the current amount, applicable VAT, anesthesia, tests, materials, medication and follow-up with DI before deciding. Treatment suitability and the final plan require an individual consultation.

Eye Surgery

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Suture double eyelid surgery Forms an upper-eyelid crease using sutures rather than a full-length skin incision.	**600,000**
Natural adhesion double eyelid surgery Forms an upper-eyelid crease through small openings and tissue fixation points.	**700,000**
Incisional double eyelid surgery Creates an upper-eyelid crease through an incision, allowing direct adjustment of eyelid tissues.	**1,400,000**
Non-incisional ptosis correction ADD-ON Adjusts eyelid-opening support through a non-incisional approach when added to an eligible eye procedure.	**400,000**
Incisional ptosis correction ADD-ON Adjusts eyelid-opening support through an incision when added to an eligible eye procedure.	**600,000**
Natural adhesion + upper epicanthoplasty (anterior adhesion technique) Combines natural-adhesion crease formation with upper inner-corner reshaping in one listed procedure.	**1,300,000**
Revision suture double eyelid surgery Revises a crease previously formed with sutures. The method depends on the existing crease and tissues.	**950,000**
Revision incisional double eyelid surgery Revises a previously operated eyelid crease using an incisional approach.	**2,200,000**
Eye revision complexity - Level 1 ADD-ON A Level 1 surcharge for the additional complexity of an eye revision operation. The surgeon determines whether this surcharge applies; the schedule does not define the level criteria.	**600,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Eye revision complexity - Level 2 ADD-ON A Level 2 surcharge for the additional complexity of an eye revision operation. The surgeon determines whether this surcharge applies; the schedule does not define the level criteria.	**900,000**
Upper blepharoplasty Removes or adjusts excess upper-eyelid skin and selected underlying tissues.	**1,750,000**
Upper eyelid fat repositioning ADD-ON Repositions upper-eyelid fat as an additional step in an eligible eye operation.	**400,000**
Upper eyelid fat pearl grafting ADD-ON Adds small fat grafts to selected upper-eyelid areas as an additional surgical step.	**400,000**
Sub-brow lift Removes selected skin beneath the eyebrow to address upper-eyelid skin excess.	**1,500,000**
Lower blepharoplasty Adjusts lower-eyelid skin and fat to address lower-eyelid bags or excess tissue.	**2,100,000**
SOOF lift (nasolabial fold lift) ADD-ON Repositions the sub-orbicularis oculi fat region beneath the lower eyelid as an additional lifting step.	**600,000**
Lateral canthopexy / lower eyelid fullness enhancement ADD-ON An additional outer-corner support or lower-eyelid fullness procedure. The proposed component is confirmed during consultation.	**400,000**
Lower eyelid fat repositioning Redistributes lower-eyelid fat to address the transition between the lower eyelid and cheek.	**1,200,000**
Revision upper blepharoplasty Reassesses and revises the upper eyelid after a previous upper-blepharoplasty operation.	**2,300,000**
Revision lower blepharoplasty Reassesses and revises the lower eyelid after a previous lower-blepharoplasty operation.	**2,500,000**
Epicanthoplasty, upper, lateral or lower canthoplasty, or lateral canthopexy (each) A listed choice of inner, upper, lateral or lower eye-corner surgery, or outer-corner support. The listed amount is for each selected procedure; it is not a package for all five options.	**550,000**
Lateral + lower canthoplasty (Dual Canthoplasty) Combines lateral and lower eye-corner reshaping in the listed Dual Canthoplasty procedure.	**1,100,000**
Revision epicanthoplasty or canthoplasty ADD-ON Revises previously operated eye-corner tissues as an additional step in an eligible eye procedure.	**900,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Epicanthoplasty restoration Reconstructs the inner eye-corner region after a previous epicanthoplasty operation.	**2,300,000**
Lateral canthoplasty restoration Reconstructs the outer eye-corner region after a previous lateral canthoplasty operation.	**2,300,000**
Eye revision - anesthesia fee SERVICE FEE The schedule's separate anesthesia line item for eye revision surgery. Confirm when this fee applies and how it relates to other anesthesia charges.	**200,000**
Eye revision - materials fee SERVICE FEE The schedule's separate materials line item for eye revision surgery. The specific materials and whether other material charges apply require confirmation.	**400,000**

Rhinoplasty

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Nasal bridge augmentation + tip plasty Reshapes the nasal bridge and tip as a combined rhinoplasty procedure.	**2,800,000**
Revision rhinoplasty Revises the shape or structure of a previously operated nose.	**4,000,000**
Autologous rib cartilage rhinoplasty - nasal tip Uses cartilage from the patient's rib for nasal-tip reconstruction or reshaping.	**9,000,000**
Autologous rib cartilage rhinoplasty - partial Uses the patient's rib cartilage for the schedule's partial rhinoplasty option. The schedule does not define which structures are included in the partial option.	**11,500,000**
Autologous rib cartilage rhinoplasty - full GENERAL ANESTHESIA Uses the patient's rib cartilage for the schedule's full rhinoplasty option, labeled for general anesthesia. Confirm the surgical extent and whether general-anesthesia fees are included.	**13,500,000**
Cartilage repositioning ADD-ON Repositions nasal cartilage as an additional step during an eligible rhinoplasty.	**400,000**
Short nose, long nose, bulbous tip, hump, osteotomy, or tissue reinforcement ADD-ON An additional correction for a selected nasal shape concern, bone reshaping or tissue reinforcement. Confirm whether the amount applies per selected correction or to a combined plan.	**400,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Crooked nose correction (including septal correction) ADD-ON Adds crooked-nose correction with septal correction to an eligible nasal operation.	**600,000**
Columella correction ADD-ON Adjusts the columella, the tissue between the nostrils, as an additional rhinoplasty step.	**400,000**
Nostril correction - simple ADD-ON Adjusts nostril shape using the schedule's simple correction option as an additional step.	**400,000**
Nostril correction - composite skin graft ADD-ON Uses a composite skin graft for the schedule's more involved nostril-correction option.	**1,700,000**
Nasolabial (alar base) augmentation ADD-ON Adds augmentation around the alar base and adjacent nasolabial region.	**600,000**
Premaxillary augmentation (nasolabial angle correction) ADD-ON Adds augmentation around the premaxillary region at the base of the nose.	**600,000**
Septal correction with septal cartilage harvest ADD-ON Adds septal correction and harvest of cartilage from the nasal septum.	**400,000**
Inferior turbinate reduction (rhinitis correction) ADD-ON Adds inferior-turbinate reduction, a procedure addressing enlarged tissue inside the nose.	**400,000**
Rhinoplasty revision complexity - Level 1 ADD-ON A Level 1 surcharge for additional rhinoplasty revision complexity. The schedule does not define level criteria; the surgeon determines applicability.	**600,000**
Rhinoplasty revision complexity - Level 2 ADD-ON A Level 2 surcharge for additional rhinoplasty revision complexity. The schedule does not define level criteria; the surgeon determines applicability.	**1,200,000**
Ear cartilage graft - nasal tip MATERIAL An ear-cartilage graft material line item for nasal-tip work.	**300,000**
Ear cartilage graft - support strut MATERIAL An ear-cartilage graft material line item for structural support inside the nose.	**400,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Gluteal dermal graft - nasal tip MATERIAL A dermal graft from the gluteal region listed for nasal-tip work.	**1,500,000**
Gluteal dermal graft - nasal bridge MATERIAL A dermal graft from the gluteal region listed for nasal-bridge work.	**1,800,000**
Temporal or postauricular fascia graft MATERIAL A fascia graft from the temple or behind the ear, listed as a nasal graft material.	**1,200,000**
Autologous rib cartilage graft - nasal bridge MATERIAL The patient's rib-cartilage graft listed for the nasal bridge.	**3,000,000**
3D custom nasal implant (Inofit / FitMe) MATERIAL A custom three-dimensional nasal implant material option, listed as Inofit or FitMe.	**900,000**
Incisional alar reduction Reduces or reshapes the nasal alar base using an incision.	**900,000**
Non-incisional alar reduction A non-incisional alar-reduction option. The exact technique is discussed with the surgeon.	**600,000**
Columella correction STANDALONE Adjusts the columella as a separately listed standalone operation.	**900,000**
Nostril correction - simple STANDALONE Adjusts nostril shape as a separately listed standalone simple-correction operation.	**900,000**
Septal correction STANDALONE Corrects the nasal septum as a separately listed standalone operation.	**1,700,000**
Inferior turbinate reduction (rhinitis correction) STANDALONE Reduces enlarged inferior-turbinate tissue as a separately listed standalone operation.	**950,000**
Nasal valve reconstruction Repairs or supports the nasal-valve region to address structural narrowing or collapse.	**1,700,000**
Nose revision - anesthesia fee SERVICE FEE The schedule's separate anesthesia line item for nasal revision surgery. Confirm when this fee applies and how it relates to other anesthesia charges.	**400,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Nose revision - materials fee SERVICE FEE The schedule's separate materials line item for nasal revision surgery. Confirm which materials are covered and whether graft or implant fees are additional.	**600,000**
Foreign body removal ADD-ON Adds removal of foreign material from the nose to an eligible operation.	**400,000**

Fat Grafting & Facial Liposuction

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Facial fat graft - one area Transfers the patient's own fat to one selected facial area.	**600,000**
Full-face fat graft - first session Transfers the patient's own fat to selected facial areas in a first full-face session.	**1,200,000**
Full-face fat graft - second session A separately priced second full-face fat-transfer session.	**1,400,000**
Full-face fat graft package - first-session treatment x 2 + PRP A full-face fat-grafting package consisting of two first-session treatments plus platelet-rich plasma. This intentionally means first-session treatment twice, not one first session plus one second session. Timing is arranged with DI.	**2,300,000**
PRP ADD-ON A platelet-rich plasma line item added to an eligible treatment. Confirm preparation, use and the treatment to which this add-on applies.	**100,000**
Additional fat harvest ADD-ON An additional collection of the patient's fat for use in an eligible fat-grafting procedure.	**400,000**
Buccal fat removal Removes selected buccal fat from the deeper cheek compartment.	**1,000,000**
Facial liposuction - forehead, temple, cheekbone or cheek (per area) Removes selected superficial facial fat from one listed area: forehead, temple, cheekbone region or cheek. The listed amount is per area. The surgeon confirms the appropriate area and technique.	**750,000**
Jawline liposuction Removes selected fat along the jawline to change its contour.	**1,200,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Fat graft - one area (excluding forehead) ADD-ON Adds fat transfer to one selected facial area, excluding the forehead.	**500,000**

Facial Rejuvenation

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Forehead lift Lifts forehead and brow tissues to address position and tissue descent.	**2,500,000**
Forehead reduction Moves the hairline through surgery to reduce the visible height of the forehead.	**3,000,000**
Mini facelift (MACS) A limited facelift using the MACS, or minimal-access cranial suspension, approach.	**3,000,000**
Short-scar mini facelift - lower face A limited lower-face lift using a short-scar approach.	**4,000,000**
Full facelift Repositions facial tissues through the schedule's full-facelift option.	**6,000,000**
Neck lift ADD-ON Adds a neck-lifting procedure to an eligible facial operation.	**1,200,000**
Buccal fat removal ADD-ON Adds removal of selected deeper cheek fat to an eligible lifting operation.	**1,000,000**
Nasolabial fold correction with SMAS tissue ADD-ON Adds a nasolabial-fold procedure using superficial musculoaponeurotic system tissue.	**800,000**
Lateral temporal lift (outer-eye lift) Lifts tissues near the outer-eye and temple region as the listed lateral temporal-lift option.	**1,700,000**
Temple lift Lifts selected tissues in the temple region.	**2,200,000**
Submental neck lift A lifting procedure directed at the area beneath the chin and upper neck.	**3,000,000**
Thread lift - 4 + 4 threads Uses lifting threads for tissue support, with the schedule listing a 4 + 4 thread configuration.	**1,000,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Additional thread lift - 2 + 2 threads ADD-ON Adds lifting threads in the schedule's 2 + 2 configuration.	**500,000**

Facial Contouring

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Zygoma reduction Reshapes or repositions prominent cheekbone structures to reduce their projection.	**3,500,000**
Zygoma shaving Contours selected cheekbone surfaces by shaving bone.	**1,700,000**
Mandibular angle reduction Reshapes the mandibular angle to change the lower jaw's bony outline.	**4,000,000**
Long-curve mandibular contouring ADD-ON Adds extended curved bone contouring to an eligible jaw-angle operation.	**400,000**
Cortical bone resection ADD-ON Adds removal of selected outer cortical bone to an eligible contouring operation.	**400,000**
Long-curve contouring + cortical bone resection ADD-ON Combines extended curved contouring and cortical-bone removal as an additional jaw-contouring step.	**600,000**
Chin contouring (genioplasty) Reshapes the chin bone in a genioplasty or chin-contouring operation.	**3,500,000**
Chin shaving Contours selected chin-bone surfaces by shaving bone.	**1,500,000**
V-shaped or inverted-V chin osteotomy ADD-ON Adds a V-shaped or inverted-V chin-bone cutting pattern to an eligible chin operation.	**250,000**
T-osteotomy ADD-ON Adds a T-shaped chin-bone cutting pattern to an eligible chin operation.	**400,000**
3-point facial contouring - zygoma + jaw angle + chin Combines cheekbone reduction, jaw-angle reduction and chin contouring in one three-point contouring entry.	**11,000,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Revision zygoma reduction Revises cheekbone structures following a previous reduction operation.	**4,500,000**
Revision mandibular angle reduction Revises the jaw-angle contour following a previous reduction operation.	**5,000,000**
Revision chin contouring Revises the chin following a previous chin-contouring operation.	**4,000,000**
Forehead implant Adds a forehead implant to change forehead projection and contour.	**2,000,000**
Zygoma / anterior cheek implant Adds an implant to the cheekbone or anterior-cheek region.	**1,600,000**
Nasolabial (alar base) implant augmentation STANDALONE Augments the alar-base and nasolabial region in a separately listed standalone implant operation.	**1,000,000**
Premaxillary augmentation (nasolabial angle correction) STANDALONE Augments the premaxillary region at the nasal base in a separately listed standalone operation.	**1,000,000**
Chin implant Adds a chin implant to change chin projection and contour.	**1,500,000**
3D custom facial implant (Inofit / FitMe) MATERIAL A custom facial-implant material option, listed as Inofit or FitMe.	**1,100,000**
Implant removal - originally performed at DI Removes a facial implant originally placed at DI. The exact implant, removal extent and associated reconstruction are assessed individually.	**900,000**
Implant removal - originally performed elsewhere Removes a facial implant originally placed at another clinic. The exact implant, removal extent and associated reconstruction are assessed individually.	**1,700,000**
Plate removal - originally performed at DI Removes facial fixation plates originally placed at DI. Confirm the plates to be removed and whether imaging or reconstruction is charged separately.	**1,200,000**
Plate removal - originally performed elsewhere Removes facial fixation plates originally placed at another clinic. Confirm the plates to be removed and whether imaging or reconstruction is charged separately.	**2,200,000**

Breast Surgery

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Breast augmentation - Mentor Smooth Breast augmentation using the schedule's Mentor Smooth implant option. Implant model, size and operative plan are confirmed at consultation.	**6,000,000**
Breast augmentation - Mentor MemoryGel Xtra Breast augmentation using the schedule's Mentor MemoryGel Xtra implant option. Implant model, size and operative plan are confirmed at consultation.	**10,000,000**
Breast augmentation - Motiva Breast augmentation using the schedule's Motiva implant option. Implant model, size and operative plan are confirmed at consultation.	**11,500,000**
Breast fat grafting - second session A separately listed second breast fat-transfer session using the patient's own fat.	**3,500,000**
Revision breast surgery ADD-ON An additional revision-breast-surgery charge. The revision plan depends on previous treatment and current findings.	**1,500,000**
Areola reduction Reduces the diameter of the areola, the pigmented area around the nipple.	**4,000,000**
Periareolar (donut) breast lift A breast-lift option using an incision around the areola, also called a donut or periareolar lift.	**4,500,000**
Nipple surgery - inverted nipple correction or reduction A listed nipple-surgery choice addressing inversion or reducing nipple size. Confirm which procedure is planned and whether the price applies to one or both sides.	**1,200,000**
Accessory breast liposuction Removes selected fat in the accessory-breast or underarm region using liposuction.	**1,000,000**
Gynecomastia surgery Treats enlarged male breast tissue. The plan may involve fat removal, tissue removal or both.	**1,700,000**

Body Contouring

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Body liposuction - per zone (back 2, abdomen 2, flanks 2, arms 2, thighs 4) Removes selected body fat. The schedule charges per zone and assigns different zone counts to each listed region. KRW 900,000 per zone. Listed counts: back 2, abdomen 2, flanks 2, arms 2, thighs 4. Confirm the clinic's zone boundaries and laterality before calculating a total.	**900,000**
Mini abdominoplasty A limited abdominal operation focused on excess tissue in the lower abdomen.	**5,500,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Full abdominoplasty Removes excess abdominal skin and fat, with muscle-wall repair considered according to the surgical plan.	**9,000,000**
Umbilical reconstruction ADD-ON Adds reconstruction of the belly button to an eligible abdominal operation.	**1,200,000**
Umbilicoplasty A separately listed operation to change or repair belly-button shape.	**2,200,000**
Arm lift (brachioplasty) Removes excess upper-arm skin and selected tissue to change arm contour.	**5,500,000**
Thigh lift Removes selected excess thigh skin and tissue to change thigh contour.	**6,600,000**

Other Surgery & Medical Services

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Philtrum reduction Shortens the skin distance between the nose and upper lip through a surgical lip-lift approach.	**2,800,000**
Lip reduction - upper or lower (each) Reduces the volume of the upper or lower lip through surgery. The listed price is per lip, not for upper and lower lips together.	**1,200,000**
Lip tubercle augmentation A surgical option to augment the central lip tubercle.	**1,000,000**
Philtral dimple surgery (C-curve) A listed procedure to create or accentuate the philtral depression and C-curve contour. The specific technique and intended change require discussion with the surgeon.	**1,200,000**
Dimple creation - one side Creates a cheek dimple on one side through a localized surgical procedure. Placement, technique and the intended appearance are discussed at consultation.	**600,000**
Dimple creation - both sides Creates cheek dimples on both sides through localized surgery. Placement, technique and the intended appearance are discussed at consultation.	**900,000**
Cleft earlobe repair Repairs a split or cleft earlobe by reconstructing the separated tissue.	**600,000**
Prominent ear correction (otoplasty) Reshapes or repositions prominent ears in an otoplasty operation.	**2,200,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Axillary osmidrosis surgery A listed surgical treatment for underarm odor related to axillary osmidrosis. The schedule does not specify the sweat-gland treatment technique.	**1,700,000**
Mass excision - per cm Surgically removes a localized mass, with the schedule charging per centimeter. Assessment determines the removal plan; confirm measurement and whether pathology is included.	**200,000**
Scar revision - per cm Revises a scar through surgery, with the schedule charging per centimeter. Scar revision can change a scar's appearance; it does not guarantee complete removal.	**200,000**
General anesthesia - per hour (2-hour minimum) SERVICE FEE General-anesthesia service priced per hour, with a two-hour minimum stated in the schedule. Listed rate: KRW 350,000 per hour. Confirm the estimated duration, minimum charge and any included anesthesia before treatment.	**350,000**
IV sedation ADD-ON An additional intravenous-sedation service for an eligible treatment. Sedation suitability and the monitoring plan are determined by the treating team.	**200,000**
Repeat consultation fee SERVICE FEE A fee for a repeat consultation. Confirm the appointment type and whether any examinations carry separate fees.	**50,000**
Consultation for treatment performed at another clinic SERVICE FEE A consultation fee concerning treatment performed at another clinic. Bring available prior records; the consultation does not itself include a revision operation.	**100,000**
CT scan ADD-ON An additional computed-tomography imaging fee. Confirm the area to be scanned and whether reporting or other investigations are included.	**100,000**
Antibiotic injection - per administration SERVICE FEE An antibiotic injection administration line item, charged per administration. Medication selection and clinical need are determined by the treating clinician.	**30,000**
Preoperative testing SERVICE FEE The schedule's preoperative-testing fee. Confirm which tests are included and whether additional tests are needed.	**100,000**
Document issuance - non-insurance document (additional copy: KRW 5,000) SERVICE FEE A non-insurance medical-document issuance fee. Base fee: KRW 10,000. The schedule lists KRW 5,000 for each additional copy.	**10,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Prescription fee - weight-loss medication SERVICE FEE A prescription-issuance fee for weight-loss medication. This is a prescription fee, not confirmation of eligibility or the cost of medication.	**50,000**
Prescription fee - weight-loss medication, DI surgery patient SERVICE FEE The schedule's weight-loss prescription fee for DI surgery patients. This is a prescription fee; eligibility and medication costs require confirmation.	**10,000**
Prescription fee - antibiotics, other-clinic patient SERVICE FEE An antibiotic prescription fee for patients treated at another clinic. This is a prescription fee, not an antibiotic purchase price.	**50,000**
Prescription fee - antibiotics, long-term follow-up patient SERVICE FEE An antibiotic prescription fee for long-term follow-up patients. This is a prescription fee; clinical need and medication cost are assessed separately.	**10,000**

Injectables & Skin Treatments

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Botulinum toxin - glabella, crow's feet, nasal lines, gummy smile, mouth corner or cobblestone chin A botulinum-toxin entry for selected facial areas, including expression lines and specific muscle-related concerns. Confirm the selected area, product and dose; the entry is not a package for every listed area.	**60,000**
Botulinum toxin - forehead A botulinum-toxin treatment entry for the forehead. Product, dose and injection plan require confirmation.	**80,000**
Botulinum toxin - masseter, temporalis or trapezius (50 units) A botulinum-toxin entry for the masseter, temporalis or trapezius, with 50 units listed. Confirm the chosen area and whether 50 units refers to the total treatment dose.	**120,000**
Botulinum toxin - calves (100 units) A botulinum-toxin treatment entry for the calves, with 100 units listed. Confirm dose allocation and whether the entry covers both calves.	**200,000**
Micro-Botox (skin Botox) A superficial botulinum-toxin injection option described as skin Botox or Micro-Botox. The schedule does not specify the formulation, dilution or treatment area.	**120,000**
Dermal filler - standard, per 1 cc Adds volume with the schedule's standard dermal-filler option, priced per 1 cc. Confirm the product, injection area and number of syringes.	**120,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Filler dissolution (hyaluronidase) A hyaluronidase treatment entry for dissolving suitable hyaluronic-acid filler. Confirm the existing filler type and treatment extent; not every filler can be dissolved this way.	**120,000**
PRP injection A platelet-rich plasma injection treatment entry. Preparation, application and the condition being treated require confirmation.	**120,000**
Facial contouring injection An injectable facial-contouring entry. The schedule does not identify the formulation. Ask for the exact ingredients, treatment area and intended use before deciding.	**120,000**
Hydrating skin booster - 2 cc A hydrating skin-booster injection entry with 2 cc listed. Product, ingredients and injection method are not specified in the schedule.	**120,000**
Rejuran Healer - 2 cc The schedule's Rejuran Healer skin-injection entry with 2 cc listed. Confirm the exact product, treatment area and administration plan.	**300,000**
Exosome treatment An exosome-treatment entry. The schedule does not specify the product or administration route. Confirm the exact product, route, evidence and applicable local authorization with the clinician.	**350,000**
HYCOOX injector device ADD-ON A HYCOOX injector-device use add-on for an eligible injection treatment. Confirm which injection treatment this device charge accompanies.	**50,000**
IV injection - Cinderella, glutathione, garlic, vitamin or anti-swelling A listed injection choice including Cinderella, glutathione, garlic, vitamin or anti-swelling formulations. The ingredients, dose and administration route require confirmation; this is not a package of all listed injections.	**50,000**
Scar laser treatment A laser-treatment entry directed at scar appearance. The device, treatment area and session plan are not specified in the schedule.	**170,000**
Brightening laser treatment A laser-treatment entry for selected pigmentation or skin-tone concerns. Confirm the device, diagnosis, treatment area and session plan.	**250,000**
Brightening laser treatment - 3 sessions The schedule's three-session brightening-laser treatment package. Confirm the device, treatment area and interval between sessions.	**600,000**
Shurink HIFU lifting - 100 shots A Shurink focused-ultrasound lifting entry with 100 shots listed. Confirm the device, treatment area and shot allocation. The background link describes ultrasound treatment generally, not Shurink specifically.	**120,000**

PROCEDURE / SERVICE	KRW / VAT EXCLUDED
Shurink HIFU lifting - 300 shots A Shurink focused-ultrasound lifting entry with 300 shots listed. Confirm the device, treatment area and shot allocation. The background link describes ultrasound treatment generally, not Shurink specifically.	**300,000**

Official information and individual inquiries: diprs.co.kr/price / diprs.co.kr/consultation
